MARKUS TURUNEN

Software Engineer | Game Engine Programmer

Lahti, Finland | +358 44 207 9798 | turunen94@hotmail.com | Portfolio: make4t.github.io/portfolio/#projects | GitHub: github.com/Make4T

PROFILE

Bachelor of Engineering in Information and Communication Technology with a Game Technology specialization. Game and software developer with hands-on experience in Unreal Engine, multiplayer programming, C++, C#, Blueprints, version control and technical leadership. Co-founder experience across game development companies, combining practical delivery, team coordination and product-oriented problem solving.

CORE SKILLS

Game development	Unreal Engine 5, Unity, gameplay systems, game design
Programming	C++, C#, .NET, Python, Blueprints, SQL
Multiplayer	Replication, co-op gameplay, networked features, client-server concepts
Software practice	Git, GitHub, testing, REST APIs, Entity Framework Core, SQLite
Embedded and tools	Arduino, Microchip Studio, Qt, Blender

PROFESSIONAL EXPERIENCE

Jan 2024 - 2026

Programmer / Co-Founder

Crimson Eyes Oy | Lahti, Finland

- Developed game features and prototypes using Unreal Engine 5 and Unity.
- Designed multiplayer and networking solutions and contributed to client-facing IT work.
- Co-developed proprietary game products and technical prototypes.

May 2023 - 2026

Lead Programmer / Co-Founder

Varattu Valo Games Oy | Kajaani, Finland

- Led and coordinated software development work for an Unreal Engine game project.
- Implemented gameplay and multiplayer systems using C++, Blueprints and Git workflows.
- Mentored programmers and interns and coordinated technical delivery across the team.

Jun 2022 - Aug 2022

Game Development Intern

Kajaani University of Applied Sciences | Kajaani, Finland

- Supported game development work and practical software development activities.

SELECTED TECHNICAL WORK

Selected projects include **Thalassophobia**, **Game Session API**, **GASP Parkour Movement Showcase** and developer tooling projects. Detailed project descriptions, visuals and working repository links are available in my portfolio: make4t.github.io/portfolio/#projects.

EDUCATION

25 Aug 2020 - 27 May 2026

Bachelor of Engineering in Information and Communication Technology
Kajaani University of Applied Sciences | 240 ECTS | Specialization: Game Technology
Thesis: *Functionality of Unreal Engine 5 UI Widgets in a Multiplayer Environment*. Relevant study areas include game engines, real-time graphics, game programming, multiplayer programming, C++, databases, microcontrollers, Qt and Linux programming.

ADDITIONAL EXPERIENCE

Practical Nurse, Mehilainen, Kajaani (Apr 2021 - Mar 2024); Practical Nurse, City of Helsinki (Oct 2014 - Jun 2020); Practical Nurse, City of Lahti (May 2012 - Dec 2013). Previous roles developed reliability, communication, safety awareness and calm decision-making in demanding environments.
